

omexmeta::OmexMetaXml

```
classDiagram
    class OmexMetaCellML["omexmeta::OmexMetaCellML"]
    class OmexMetaSBML["omexmeta::OmexMetaSBML"]
    class OmexMetaXml["omexmeta::OmexMetaXml"]
    OmexMetaCellML --|> OmexMetaXml
    OmexMetaSBML --|> OmexMetaXml
```

The diagram illustrates a class hierarchy. At the top is the class 'omexmeta::OmexMetaXml'. Below it are two other classes: 'omexmeta::OmexMetaCellML' on the left and 'omexmeta::OmexMetaSBML' on the right. A horizontal line connects the two bottom classes, with a vertical line and an upward-pointing arrow from the center of this line to the bottom of the 'omexmeta::OmexMetaXml' box, indicating that both 'omexmeta::OmexMetaCellML' and 'omexmeta::OmexMetaSBML' inherit from 'omexmeta::OmexMetaXml'.
